

Women

Say NO to War

Wednesday 8 March 2006

In the past five years, the US government has led the disastrous invasions and occupations of Afghanistan and Iraq, and is now apparently planning a military attack on Iran.

On International Women's Day this year, add your voice to the call of women around the world who are saying NO to war, YES to peace

**Join us at 5:30pm at the US Embassy
29 Fitzherbert Terrace, Thorndon, Wellington**

Wear something pink if you can, and bring pink streamers or ribbons, photos, cardboard or paper peace doves, and wool to decorate the embassy fence; something to make a noise with - pot and spoon, drum, your voice - during the time of anger; flowers or candles to leave at the gate during the time of mourning; and a poem or reading to share during the time of reflection. All women welcome.
